Goliath Rigidtag®

Place the **Goliath®** on newborn calves or adult cattle as an additional marker (management) which you can combine information from the animal's approved I.D. with genetics, ownership, etc. either through printing or through color coding. Due to its size and its readable printing it ensures the visibility from large distances, without immobilizing an animal or washing the ear tags.

**Goliath®
Applicator**

Jumbo Rigidtag®

Place the **Jumbo®** on newborn calves or adult cattle as an additional marker (management) and in cases where visibility from long distances is not required. The medium size of **Jumbo®** its ideal to printing a wealth of information and complex printing options and color coding for management marking.

**Jumbo®
Applicator**

Management Colour Range for all Rigidtag® Size
