Goliath Rigidtag®

Install the **Goliath®** with the definitive Sow I.D in young gilts ~6 months between 1st & 2nd heat in sets (2 ears).

In bigger age sows, ensure maximum possible immobility (mating day) and select a point with soft tissue.

The definitive Sow I.D may contain elements of management and official marking (see print options).

Jumbo Rigidtag®

The **Jumbo Rigidtag®** is the No1 choice in the management of young replacement pigs (female & male). The medium size of tag and the long term, can to imprint for ever all genetic information of your choice. In addition to the print options you can to use the **Jumbo Rigidtag®** color palette to identify each generation, each race of the core your reproduction. Because during the development of animals the holes in the ears also get bigger, make sure to apply it at biggest age as possible to avoid possible losses that may arise.

"**Jumbo®** application period – piglets age over 15 days old"

Rigidtags® = 100% nylon ear tags with excellent resistance to wear and tear from the animal environment and ultraviolet radiation.
